

John L. Batzer, Jr.

Objective

I am an accomplished software engineer seeking a software engineering position where experience in all areas of client / server application development and the project management life cycle will both add value to and expedite the development process.

Experience

2006–Present *York Technical Institute* York, PA

Adjunct Professor / Computer Systems Specialist Program

- Taught the following courses: Operating Systems I, Data Communications, and System Applications.

2004–Present *Liquid Media Communications* Harrisburg, PA

Web Application Engineer – Pennsylvania Training and Technical Assistance Network (PaTTAN)

- Developed a Content Management System (CMS) enabling a technologically diverse enterprise to keep the content of three corporate websites up-to-date while also providing management an audit trail for all content displayed under the corporate brand
- The application was built with ASP.Net, using a complex back end involving SQL Server, XML, and Filemaker databases
- Development included a Graphical User Interface (GUI) for content entry, a complex, multi-tiered workflow, and an automated reminder system
- In addition to the application development – which I was solely responsible for – I was involved with requirements gathering, specifications authoring, task prioritizing, training authoring, and manual writing
- Worked as a contractor through Arcus Consulting

2002–Present *Defense Distribution Center* New Cumberland, PA

Web Content Manager

- Gathered requirements for, researched, planned, chose, and authored an implementation plan for the enterprise-wide launch of the Interwoven web content management system
- Created a training package for the aforementioned content management system
- Coordinated and authored the redesign of both the corporate Intranet and Internet sites
- Served as a development team member for multiple web development initiatives utilizing: ASP, ASP.Net, Systems Management Server (SMS), Crystal Reports, SQL Server, XML, MS Access, SAP Portal, and SharePoint
- Received formal recognition for support of the Defense Logistics Agency (DLA) wireless initiative summit
- Member of the DLA Internet Council and the Knowledge Management Work-in-Progress-Team (KM-WiPT)
- Managed / Coordinated a global workforce of 30 people
- Enforced Section 508 compliance for all content on corporate Internet and Intranet sites
- Worked as a contractor through Professional Resource Group and E&E Consulting Services

2000–2002 *Syscom Inc / PublicBuy.Net* Baltimore, MD
Web Application Engineer

- Software developer on five separate Internet-based applications utilizing: ASP, Java Servlets, Java Beans, Crystal Reports, SQL Server, XML, MS Access, Oracle
- Served as Server Administrator for two web servers (Windows NT 4.0 running IIS 4.0 with SQL Server 7.0 and RedHat Linux 6.1 running Apache with Tomcat and Oracle)
- Served as Webmaster for 6 corporate websites

1997–2000 *ITT A/CD* Clifton, NJ
Engineering Trainee

- Software developer on four separate projects utilizing: ASP, C++, ADA, and MS Access

Education

1996–2000 *Elizabethtown College* Elizabethtown, PA

- B.S., Computer Engineering

Skills

Programming Languages

ASP.NET/ADO.NET (2 years)
ASP (6 years)
C/C++, Visual C++ (3 years)
C#.Net (1 year)
HTML/dHTML/CSS (6 years)
Java Servlets / Beans (2 years)
JavaScript (6 years)
VB.Net (2 years)
Visual Basic (5 years)
XML/XSD/XSL (3 years)

Server Technologies

IIS (6 years)
MS SQL Server (5 years)
Oracle (2 years)

JoAnn Schultz

Administrator, Defense Distribution Center
(717) 770-7864
